

The Best Cough Syrup Is Home-made

Here's an easy way to save \$2. and get the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families the world over feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes and gives almost immediate relief. Splendid for the tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Fort Wayne, Ind.—Adv.

NEW YORK FOOD CONSUMERS STILL FEEL STRANGLEHOLD OF THE "BIG FIVE" PACKERS

But Evening World Publicity Is Making Them Loosen Their Grip.

A LESSON IN POULTRY

Hebrew Housewives Heed Warning and Buy Cheaper Food.

By P. Q. Foy.
(Special Food Expert of The Evening World.)

Consumers in the metropolitan district still feel the stranglehold of the large packers, who are shortshipping the market, causing abnormally high prices and a scarcity of high-grade meats, even at present inflated values. The coming Lenten season will greatly curtail the consumption of meats and prices invariably decline. In spite of the stiffening wholesale prices of beef and lamb, dealers have not advanced their prices to the consumers in the same proportion, while the housewives are buying the meats and foods that are cheapest.

The Evening World congratulates Hebrew housewives for the intelligent methods employed by them last week in teaching the dealers a lesson when they exacted excessive prices on kosher dressed fowls. A shortage in the supply permitted these dealers to advance their prices to 48 to 50c per pound, but the Hebrew housewives followed the advice given by The Evening World to use other meats instead of this high priced poultry, and the wholesale market dropped six cents this week under about the same conditions of supply as existed last week. No combination of any kind can withstand the intelligent purchasing operations of the housewives.

Eggs continue plentiful and retailing to consumers at 14 to 15c a dozen. Some dealers select the large Western eggs and charge 15c for them. Receipts of eggs to-day included 3,500 cases of Chinese eggs, 30 dozen eggs to the case. They were shipped from Shanghai a little over three weeks ago, being seventeen days on the water and five days crossing the country from the Pacific Coast. This is one of the largest shipments of eggs.

Chinese eggs ever received here at one time.

The receipts of eggs at the New York market for the last three days were more than 94,000 cases or more than 3,000,000 eggs, but owing to The Evening World campaign there is an insistent demand for fresh eggs and the wholesale market is holding about steady at 4½ cents.

The Evening World for the consumers in the solution of the fixed prices on what, which will be sold to consumers at prices governed by the law of

supply and demand, will not side-track our efforts in demanding the removal of the fixed prices on corn and live hogs in the interest of our 100,000,000 of consumers.

PORK VALUES MUST COME DOWN MATERIALLY.
The big end of this winter's pork packing season is slowly drawing to a close. On account of unusual conditions, such as embargoes being placed against shipments of live hogs to the big central markets, there are at the present time more live hogs in the country than there ever was at this season of the year.

Hogs have come through the winter in the finest condition on account of the mild weather and the oppor-

SHIPBUILDER'S WIFE WILL CHRISTEN GUNSTON HALL AS "MRS. WILSON'S SHIP"

MRS. B.W. MORSE.

President's Wife is Expected to Be Present at Launching To-Morrow.

WASHINGTON, Feb. 25.—"Mrs. Wilson's ship" is to be launched from the ways of the Virginia Shipbuilding Corporation at Alexandria, Va., at 4 P. M. to-morrow. As the shipyard is only six miles from the White House it is quite certain that Mrs. Wilson will be there to see her ship launched.

The shipyard was so near home that the President was glad of the opportunity to show his interest in such an important phase of essential industry as shipbuilding by agreeing to hammer home the first rivet in the keel of the first ship, which would make it the President's ship. But Mrs. Wilson had a little surprise for the occasion. As soon as the President had completed his task she established a precedent by laying her bare hand on the keel and saying: "I christen thee Gunston Hall."

Ever since then it has been "Mrs. Wilson's ship" to everybody in the yard, and it is now ready to take the water. Mrs. B. W. Morse of No. 235 West 103d Street, New York, wife of the Vice President and general manager of the Virginia Corporation, will formally christen the ship, and Mrs. Wilson will hear her words repeated when the bottle of wine is smashed on the prow of the giant steel cargo ship, the first of a fleet of twelve.

7-CENT FARE PLOT IN ALBANY IS BACKED BY POWERFUL LOBBY

(Continued from First Page.)

the type of The Evening World give the entire scheme the publicity it merits. The average man in New York city doesn't realize what a hard fight is being made up here by the traction people for a boost in fares. If they did they'd write to their Senators and Assemblymen and advise them how their votes should be cast."

DEMOCRATIC LEADERS WILL FIGHT THE SCHEME.

Senator Foley of Manhattan, minority leader in the Upper House, will fight against 7 cent fares. Senator Foley believes that the right to reg-

late fares should be reposed solely in the local government. It is understood there will be a solid Democratic line-up in the Senate against a twin measure of the Martin Bill.

The Martin Bill simply provides that the Public Service Commission and not the Board of Estimate or a similar municipal body shall have the right to fix fares. The particular paragraph in the law which would place municipalities at the tender mercies of Public Service Commissions reads: "Whenever either commission shall be of opinion, after a hearing . . . that the rates, fares, or charges demanded . . . are unjust, unreasonable, unjustly discriminatory or unduly preferential, or that the maximum rates, fares or charges are insufficient to yield reasonable compensation for the services rendered, and are unjust and unreasonable, the commission shall, with due regard among other things to the value of the property actually used in the public service, and to the necessity of making reservations out of income for surplus and contingencies, determine the just and reasonable rates, fares and charges to be thereafter observed and in force as the maximum to be charged for the service to be performed. Notwithstanding a different rate, fare or charge prescribed by any consent, franchise or contract of the local authorities of any city or other political subdivision of the State.

The black-faced type shows the exact language that would forever divest cities like New York of their right to regulate fares. It would break the old contract between municipalities and traction company and remove the only means municipalities now possess of compelling the companies to give decent service. Disinterested legislators who have read the Martin Bill regard it as one of the most drastic bits of legislation ever presented here. If a bill were drawn by Shonts, Hadley and Quackenbush, they claim, it would not suit the purposes of traction companies better than the Martin measure.

Genoa Gives Medal to U. S. Troops. (GENOA, Tuesday, Feb. 25)—The Municipality to-day conferred a gold medal on the 32nd United States Infantry, which is stationed here awaiting transportation to New York. The 32nd Infantry is a unit of the 86th Division, composed of National Army men from Chicago and Northern Illinois.
